

**Job Title:** Surveyor – Clean Water Infrastructure & Smart Metering

**Company:** Cappagh Contractors

**Location:** Havant

**Reports to:** Contract Manager

**Role Overview:**

Cappagh Contractors is seeking a Surveyor to support the Smart Metering Mass Deployment Programme. The role involves surveying properties prior to smart meter installations, identifying any access, safety, or technical issues in advance, and ensuring installation teams can complete work safely and right first time.

**Key Responsibilities:**

- Complete pre-installation surveys of properties ahead of smart meter installs.
- Assess existing meters, meter locations, access, and working conditions.
- Identify and record any installation constraints or required remedial works.
- Engage with customers to confirm access and explain the survey process.
- Capture accurate survey data, photos, and reports using digital systems.
- Escalate non-standard or complex installations where required.
- Provide clear handovers to installation and project teams.
- Maintain high standards of health, safety, quality, and customer service.

**Skills and Experience:**

- Experience in surveying, utilities, metering, or a similar field-based role.
- Knowledge of gas and/or electric metering environments desirable.
- Strong attention to detail and customer-facing communication skills.
- Comfortable working independently and managing a mobile workload.
- IT literate
- Full UK driving licence.

**Qualifications:**

- CSCS card or equivalent industry accreditation (desirable)
- NRSWA (Streetworks) accreditation (desirable)

**About Cappagh Contractors:**

Cappagh Contractors is a respected civil engineering company specialising in utilities and water sector projects. We offer opportunities for career progression, ongoing training, and a commitment to quality, safety, and customer service.

Working for Cappagh you will be the frontline of our business, embodying our “can do” attitude at every step of the way.
